

XLink

Cellular Bluetooth Gateway

Use Your Home Phone as Your Cellular Phone

The XLINK™ connects your *Bluetooth* enabled cellular phone with your standard desktop phone and telephone service, allowing you to use your regular home or office telephone as a cellular multi-line phone system. All you need is a *Bluetooth* enabled cellular phone, and the XLink will take care of the rest.

XLink ITC-BTTN Features:

- XLINK™ integrated *Bluetooth* device provides a wireless connection to your *Bluetooth* enabled cellular phone (no external cables or modules required)
- Simultaneously connect up to 3 cellular phones to XLink
- Connect directly to any number of standard telephones using XLink's built-in RJ11 jack
- Displays Caller ID number from your cellular phone on your home phone's LCD
- Make and receive cell phone calls using XLink with normal wireline cordless or corded telephones
- Get better reception by docking your cell phone in your "hot spot" for strongest signal and talk anywhere in your home
- Use local number portability to move your land line number to a cell phone and keep using your land line phones
- Have the convenience and audio quality of a full-sized handset, speakerphone or headset for extended calls
- Place your cell phone in your best area for cell phone reception and use regular corded or cordless phones throughout the house
- Call Waiting between calls using one and/or multiple cellular phones
- Use the free unlimited nights, weekends and mobile to mobile calling plans to their fullest while fully utilizing unused peak minutes;
- Integrated Echo Cancellation for optimal call quality
- Voice Dialing as provided on your cellular phone
- Speed Dialing, Voice Mail access
- Dial and send numbers manually (press # to send dialed number) or automatically

*USB cable not included

- Bellcore Standard Line Ringing Voltage ensures home phone ringer performance
- True 5 REN ensures all home phones connected to the XLink ring properly
- User configurable and programmable for cellular phone features e.g. voice mail number
- Built-in USB port* to link with your PC for firmware upgrades
